EDUCATION

B.Tech (AI&DS) - Sri Eshwar College of Engineering CGPA: 7.5	2023-2027
HSC - PMG MatricHigher Secondary School 75.8%	2021-2023
SSLC - Pandit Nehru Matric Higher Secondary School 100%	2020-2021

INTERNSHIP

Mern Stack Intern	2025
-------------------	------

Completed a MERN Stack internship at GSoft Solutions, gaining hands-on experience in building full-stack web applications using MongoDB, Express, React, and Node.js.

PROJECTS

Diabetes Prediction

Developed a supervised machine learning model to predict diabetes using medical diagnostic features from the Pima Indian dataset performed data preprocessing, feature analysis, and hyperparameter tuning, implementing XGBoost to optimize model performance. Achieved 90% cross-validation accuracy, delivering a reliable predictive model for early diabetes risk.

AI-Powered Business Intelligence System

Built a full-stack AI-powered MSME analytics dashboard using Flask and Python with integrated Groq Llama 3.3 API for intelligent business recommendations. Implemented dynamic sales visualization, voice-enabled interaction, smart alerts, dataset analysis, authentication system, and downloadable AI-generated reports using Pandas, Matplotlib, JavaScript.

Patholes detection System:

Built a pothole detection system covering data preparation, training, and deployment workflow. Used labeled road images to identify and analyze damaged road surfaces. Performed testing on images and videos to validate system performance. Focused on real-world use for road safety and smart transportation improvements
